ENGINES:

Volvo penta D9 - 575hp diesel engines.
The D9 in-line 6 diesel is developed from the latest design in modern diesel technology. The engine has a robust block with ladder frame, high pressure unit injector system, 4 valves per cylinder, "twin entry" turbo and aftercooler. Together with a large swept volume and the electronic engine management system, this results in a very smooth running engine with world-class diesel performance, combined with low fuel consumption and emissions.

MECHANICAL EQUIPMENT:

Volvo electronic controls
Bow thuster
Hydraulic steering
Generator
Calorifier
Trim tabs
Automatic bilge pumps
Battery charger
Dripless shaft seals
Air conditioning
